Jul 2006 – Nov 2015

PANKYO

QCC Team manager Obigo

I have been in Obigo for 10 years and there have been many changes in the product.

The obigo product was a mobile solution when I joined and I was in charge of the messaging part.

Here are the product lines I was responsible for :

Messaging - WAP browser - Full browser - Web platform (mobile - TV - Automotive) I had work as test leader in QA organization and became team manager in 2012.

When obigo develop a web platform with a group called WAC, I became a WAC contributor.

I supported personally to make the W3C widget specification and I became a contributor of W3C
